

MUHAMED SULIMAN

Data Engineer

Cairo, Egypt | +20 1040921300 | Muhamed.Izzaldin@gmail.com

LinkedIn | GitHub

Professional Summary

Data Engineer with over 2 years of experience designing scalable ETL pipelines, enterprise data warehouses, and Master Data Management (MDM) solutions across banking, insurance, healthcare, and order management domains. Experienced in Informatica PowerCenter, IDQ, IDMC, SQL Server, Oracle, Python, and Apache Spark. Skilled in data modeling, SQL optimization, Data Vault, data quality, and enterprise data integration.

Technical Skills

Database & Data Warehousing:

- Database Analysis & Design, Data Quality Assurance
- SQL Server, MySQL, PostgreSQL, Oracle, MongoDB

Data Quality & Governance:

- Informatica EDC (Enterprise Data Catalog), IDQ (Data Quality), business glossary and data domain governance
- Data profiling, scorecards, rule-based validation across completeness, validity, accuracy, consistency, and uniqueness dimensions

Data Analytics & Reporting:

- Advanced SQL (window functions, CTEs, procedures, tuning, partitions)
- Microsoft Power BI (DAX, Direct Query, Performance Analyzer)
- Python (Pandas, NumPy, Beautiful Soup, Matplotlib)

Data Modeling Techniques:

- Star & Snowflake Schemas, normalization & denormalization
- SCD Types 1, 2, 3; fact & dimension table design
- OLAP & OLTP modeling, Data Vault (Hubs, Links, Satellites)

Data Integration & ETL Tools:

- Informatica PowerCenter, Informatica Developer, IDMC, SSIS

Big Data:

- Hadoop Ecosystem (HDFS, MapReduce), Apache Spark, Apache Airflow

Professional Experience

Data Engineer – Innotech Diamond (Jun 2025 – Present)

Deployed as an outsourced Data Engineer consultant to client sites via Innotech Diamond.

- Independently designed and built a Data Quality framework using Informatica EDC and IDQ, including data profiling, business glossary alignment, and rule-based validation scorecards.

Client Engagement: FAB Misr (Jan 2026 – Present)

- Designed and maintained enterprise ETL workflows using Informatica PowerCenter and IDMC.
- Supported Core Banking modernization by integrating multiple banking applications.
- Performed ETL testing, reconciliation, and production support.
- Optimized SQL queries and resolved workflow issues.

Client Engagement: AXA Egypt Insurance (Jun 2025 – Jan 2026)

- Developed MDM solutions using match & merge, trust rules, and Golden Records.
- Built ETL pipelines integrating multiple systems into an Operational Data Store (ODS).
- Designed Data Vault models and implemented SCD Type 2.
- Collaborated with business teams to deliver reporting solutions.

Data Engineer & DWH Intern – Giza Systems (Sep 2024 – Mar 2025)

- Developed ETL workflows using Informatica PowerCenter and SSIS.
- Designed dimensional models and optimized SQL queries.
- Created technical documentation and source-to-target mappings.

Big Data Associate – NTI (Jul 2024 – Sep 2024)

- Built Spark-based data processing pipelines.
- Worked with Hadoop ecosystem and HDFS.

Education

Bachelor of Information Systems and Computer Science

Faculty of Computer Science and Artificial Intelligence, Helwan University (2018–2022)

Graduation Project: Hobby App (A+)

Personal Competencies

- Strong leadership, self-management, and conflict resolution skills.
- Excellent communication, organizational, and task prioritization abilities.
- Skilled in analytical thinking, Business Process Mapping, and problem-solving.
- Adaptable, committed to continuous learning, and staying updated with industry trends.

Languages

- Arabic — Native
- English — Professional Working Proficiency (B2)
- German — Beginner (A1)
